

Hikashoppayment

Paypal Website Payments Pro Hosted Payment Solution plugin by BrainforgeUK

This plugin enables you to setup your PayPal Website Payments Pro Hosted system.

Originally developed for the UK hosted solution (WPP).

Documentation available here: [hostedsolution_uk.pdf](#).

Configurable Parameters

Account ID

Alternatively you can enter your PayPal account email address email (not recommended).

Debug

- At end of checkout you need to press PAY NOW button.
Paypal variables can be viewed in your browser using 'view source'.
- Payment notification debug saved to file 'bfpaypalhostedsolution.log' in your Hikashop log folder

Order Notification

When set to Yes a notification email will be sent to the customer when Hikashop receives notification from PayPal that a successful payment has been made.

Other customisations

See Hosted Solution documentation referenced above.

Enter one per line, such as:

```
bodyBgColor=#FF0000  
orderSummaryBgColor=#EDF2F7  
footerTextColor=#00FF00
```

Iframe Width

Recommended : 570px

Iframe Height

Recommended : 540px

This might create a gap between the iframe content and any information displayed below.

Display above Iframe

Enter the path (relative to home of installed Joomla! site) for PHP / HTML file the content of which will be include above the Iframe. For example:

```
templates/mytemplate/html/plg_hikashoppayment_bfpaypalhostedsolution/  
iframe.before.php
```

Order information is available in object: \$this->order

Display below Iframe

Enter the path (relative to home of installed Joomla! site) for PHP / HTML file the content of which will be included below the Iframe. For example:

```
templates/mytemplate/html/plg_hikashoppayment_bfpaypalhostedsolution/iframe.below.php
```

Order information is available in object: \$this->order

Notes

Space for you to enter any comments you might find helpful in the future.

Language Constants

The following translated / overridden (user visible) text is passed to PayPal :

- `PLG_HIKASHOPPAYMENT_BFPAYPALHOSTEDSOL_ITEM_NAME`="Total price"
- Translatable method parameters (where noted).
